Education:	University of California - Santa Cruz Computer Science, 2nd year September 2017 – Present GPA: 3.64
Experience:	Most: Java, C Some: Python, HTML, CSS, JavaScript
Personal Projects:	Web Design: Creating a website that pulls posts from Instagram under a specific hashtag and displays them as pins on a Google Map. When the user hovers over the pin, it displays the photo with additional info, including the username and description (in progress). Web Design: Simple website using Bootstrap that plays rock paper scissors. Game: Guitar hero knockoff made in Greenfoot as part of a group project in high school while still new to coding. Voted best project!
Employment:	Camp Counselor at Bar 717 Ranch 2019 Busser/Server at Q'ero Restaurant 2016-Present
